ABOUT

Melchiorri Studio Gallery is a curated expression of material, form, and identity — where marble becomes the central language.

Each piece is conceived as a unique or limited work, shaped through a dialogue between design and craftsmanship. Rooted in Italian heritage and guided by a contemporary vision, the Gallery explores marble not as a static element, but as a living material — capable of conveying depth, texture, and emotion.

Rather than following trends, Melchiorri Studio Gallery focuses on creating timeless objects with a strong, recognisable presence. Every work is designed to exist beyond function, positioned between collectible design and sculptural expression.

The approach is intentional and selective: fewer pieces, more meaning. Each creation reflects a commitment to authenticity, precision, and the enduring value of materials shaped by hand.

WORKS

2026

The Works section presents a curated selection of pieces by Melchiorri Studio Gallery, each conceived as a unique or limited work. Rather than a traditional collection, these works reflect an ongoing exploration of marble — where form, proportion, and material are continuously reinterpreted.

Each piece stands on its own, yet contributes to a coherent and recognisable design language. From sculptural objects to functional forms, Works highlights the balance between design and craftsmanship, offering a precise view into the evolving identity of the Gallery.

PRAIANO

collection

Praiano is one of Italy's charming coastal gems, nestled in a strikingly rocky hillside. Inspired by these cliffs, the bases of our tables have been lovingly sculpted from a block of marble that mirrors the organic forms found in Praiano. To contrast with these distinctly jagged bases, the tops offer a powerfully monolithic presence. This meeting

of brutalism with purism creates beautifully dramatic shadows as the pieces catch the light, imbuing them with a strong and contemporary character. The Praiano Collection brings together works that display craftsmanship and creativity at the highest level, and as such, it is an indelible part of the world of collectible design.

PRAIANO

dining table

The Praiano dining table in Verde Cipollino marble draws inspiration from the idyllic coastal town of Praiano on the Amalfi Coast. The table's exceptional design embodies the fusion of art and nature as the marble glows with its famed chromatic shades and sumptuous swirls. The strikingly sleek stone's unique characteristics wonderfully reflect the

serenity of the sweeping curves of the Amalfi Coast, famous for its stunning coves and cliffs. Every last detail of its base has been expertly hand-carved by esteemed artisans, evoking the sinuous silhouette of the coast. The result is a perfect harmony between functionality and form, elevating the dining table into a work of art.

POSITANO

collection

Positano is another one of Italy's iconic cliffside villages, tucked away in an enclave by the shore. Inspired by this small slice of rocky paradise, these extraordinary works of art utilise the red marble's dreamy patterns to reflect the irregular shapes and natural edges of Positano's coastline. Just as these works embrace the idiosyncrasy of nature,

with their rustic red hues, they also strike a distinctly modern chord with their sleek artistry that is evident from every angle. Handmade with precision and care using a beautiful block of Italian marble, each piece is a loving tribute to this paradisiacal coastal town, while at the same time inspiring awe in the world of contemporary collectible design.

POSITANO

coffee table

Named after the picturesque cliffside village that inspired it, this striking coffee table wonderfully captures Positano's dreamy atmosphere. The rapturous red marble with its muted tones conjures up the breathtaking landscapes, while the charmingly jagged base and stepped top recalls the encounter between the sea and the town center, between the smooth surface and the bush-hammer

Entirely hand-carved from a block of marble, this coffee table has a unique story to tell. The chalky red marble is rich in visual nuances, its natural irregularities further highlighted and celebrated in the artisanal craftsmanship. As such, this coffee table is an undeniably authentic piece of handmade creation, as well as a timeless beauty to savour.

The Positano console perfectly embodies the picturesque cliffs of Positano, with its rugged elegance and peaceful presence. Inspired by this village on the coast, the console is a wholly unique design piece that exudes sophistication and craftsmanship. Where it combines rough textures

and jagged lines with smooth it recalls the iconic architecture of Villa Malaparte as seen in Jean-Luc Godard's 1963 *Le Mepris*. That same blissfully rustic atmosphere is felt in the Positano console, its bush-hammered underlying a rugged beauty.
